

# MIDAS METERING SERVICES LTD.

METERING INSTALLATION & DATA ACQUISITION SERVICES

## GENERAL CONSULTING SERVICES

**Description:** MIDAS personnel are highly trained, highly skilled individuals with over 50 years of combined experience in electrical metering, data management and information systems design and development. We have provided consulting and project management services in these domains to a wide variety of clients across all industry segments; a brief summary of which follows:

### *Regulated Agencies*

- metering system and data management technical support to the Alberta provincial transmission system and power pool operations,
- data auditing and financial settlement verification services to regulated agencies,
- remote data management software setup and configuration services to the Ontario provincial transmission system,

### *Electrical Utilities*

- metering system and remote data management systems technical support to several provincial transmission and/or distribution wire services providers,
- data auditing services for internal utility data management system verification,

### *Large Industrial Facilities*

- designed, developed and implemented a complete metering and billing system for a large industrial/cogeneration facility,
- revenue metering design and specification expertise provided to the majority of all large industrial cogeneration facilities within the province of Alberta,
- power quality measurement and data analysis,

### *Commercial Facilities*

- design and implementation expertise in the development of several commercial metering and sub-metering installations,
- sub-metering/billing services for landlord/multi-tenant operations,

### *Independent Power Producers*

- revenue metering design and specification expertise provided to the majority of the independent power producers within the province of Alberta,
- financial settlement analysis and verification,
- metering system and remote communications expertise to enable participation in the Alberta ancillary services market,
