

MIDAS METERING SERVICES LTD.

METERING INSTALLATION & DATA ACQUISITION SERVICES

METERING SYSTEM SERVICES

MIDAS provides electrical energy producers and consumers with end-to-end electrical metering system installation and operational services. Whether it's a new custom metering system design or troubleshooting an existing metering installation, MIDAS can meet all of your electrical metering system needs.

Design, Construction & Installation

- Standard and custom designed revenue or check electrical metering systems.
- Complex electrical metering scheme design (current summation, transformer/line loss compensation,...).
- Standards compliance (CSA, Measurement Canada, AESO,...).
- Custom metering system interface and control solutions (multi-port/protocol communications, analog/pulse signals, custom i/o,...)

Testing & Commissioning

- Full revenue metering system commissioning capability.
- Installation inspection audits.
- In-situ testing and schedule management.
- In-situ test and installation inspection audit records management.

Verification

- Management of electrical meter re-verification (re-sealing) requirements.
- Re-verification testing and schedule management.
- Meter re-verification test records management.

Troubleshooting

- Troubleshoot and recommend solutions to resolve metering system problems.
- Repair/replace metering system components on an as required basis.
